

"That's right, in 2009 I was homeless and living at Catholic Charities sitting in Hero School. Since then I completed my Associates Degree at CSN and now UNLV. I have also started my own business. Thanks for being a part of my life and influencing it for the better. The transformation to heroism began with you. Thank you." -Nick O., UNLV '16, Boyd Law '20

HERO SCHOOL® CARE - *The Sequel.*

Homelessness Intervention, Reversal and Recovery Initiative

Save the Date. 2-23-19 Save the Day.

With the success of the 23rd Anniversary Homeless Breakthrough Academy last quarter, the CARE Complex has invited Hero School for a *Sequel*, beginning February 23rd at their facility next to the Courtyard at **200 Foremaster Lane**. Thanks to our heroic partners and cosponsors, many hundreds more struggling individuals have already broken free from homelessness, are housed and hired, and are better using the resources of agencies and non-profits to move onward and upward.

This month we are doubling down on efforts to maintain this positive momentum and advance against the *Culture of Homelessness* that has ravaged far too many families, bodies and livelihoods.

We ask for your partnership once again in providing cutting-edge education, identification and strategic intervention services for people living on the street, and so we can provide some breathing room for those businesses, families and charities wrestling with this crisis on a daily basis.

Please select quantity and Sponsorship Level that fits your interest and desired impact. Thank you.

Hero School is a revolutionary intervention and education model that combines math, movies and mythology to engage, motivate and educate even the most disengaged and disconnected adults and youth.

Since 1995, Hero School® branded strategic interventions, employment academies and leadership trainings have ignited lifelong learning and accelerated the advancement of tens of thousands of youth and adults in hundreds of schools, agencies and businesses. Hero School *Character Change*® modules consistently motivate *initiative, purpose, personal responsibility* and *lifelong learning* at 10X levels.

Hero School Community Initiatives as a 501C3 non-profit and all-volunteer organization that combines entrepreneurs, education leaders and experts with Hero School® technologies and strategically-delivered resources to produce cutting-edge homelessness prevention, intervention and restoration experiences that quickly free strugglers from the *4 Habits of Homelessness*, dependency and repeated history.

Community Partners play an essential role for the advancement of each cohort and non-profit initiative. Partners make possible the many human rescues, life transformations and mindset changes forged by the committed heroes and heroines contributing the best of themselves every day. Together, we can empower and equip struggling people with the tools to overcome the past and become the heroes, producers and leaders they can be, want to be, and were meant to be.
